

Wet Wipe Projection Writing Boards

No more Hotspot,
No more Reflections

Conventional low gloss or white board

The TK-Team Wet Wipe Projection Screen has a virtually indestructible surface. The professionally developed surface has been specifically developed with interactive projectors in mind.

The perfectly flat ridged matt white surface does not flex and cannot be marked or damaged by an interactive pen or stylus. When someone uses a dry wipe or permanent marker* on, you simply wash off with a damp cloth.

- Matt white ceramic surface measures 13GU according to ISO 2813 (DIN 19045)
- Guaranteed not to mark for 25 years
- All normal sizes and ratios available
- Available in a dry wipe option
