

## Daily care and maintenance of TK-Team products

### **WetWipe, WriteScreen, MaxiScreen writing & projection surfaces:**

Writing surfaces are durable ceramic projection surface which can be written with standard whiteboard pens. Stains and contaminated dirt can be cleaned from the surfaces with neutral cleansing fluid or with whiteboards own cleaning fluid. Detergents may leave fats on the surface of the whiteboards, which can weaken the purity of the whiteboard. After using cleaners, wipe the board with clean, warm water and wipe the board dry.

**WetWipe** wipe the surface with moist cloth or with whiteboards own cleaning fluid, please check Whiteboard instructions.

**WriteScreen** wipe the surface with like the normal Whiteboard with dry wiper, please check Whiteboard instructions.

### **Hush Acoustic panels:**

To clean the fabric surfaces of the Hush Acoustic panels, light brushing is recommended with a soft brush.

### **Notice boards:**

#### **Cork boards:**

Neutral cleaning fluid can be used to clean the natural cork surface. The surface can also be cleaned with a soft brush.

#### **Bulletin Boards:**

Neutral cleaning fluid can be used to clean the Bulletin Board surface. The surface can also be cleaned with a soft brush.

**Please note! As a new product Bulletin Board can have a scent of linen oil. This scent vanishes as time passes depending on air conditioning and room temperature**

#### **Colour and Linen pinboards:**

For cleaning of the fabric surfaces, light vacuuming and dry cleaning are recommended.

**Colour and Linen pinboards are M1 classified products**

## Writing surfaces care, e3 CeramicSteel and Glass:

**e3 CeramicSteel whiteboard** surfaces are guaranteed to withstand the rigors of everyday classroom use and offer exceptional writing performance, superior erasability and are resilient to scratches, stains and fading. Proper use and maintenance will keep your board looking like new.

**Glass boards** is made of hardened glass, the colour of the board is enamelled on the surface of the board. Proper use and maintenance will keep your board looking like new.

### Daily usage of White & Glass boards image 2

Cleaning TK-Team white board is easy with TK-Team white board eraser. Check eraser every now and then and change the replacement felt when needed.

Image 3

### General cleaning instructions and stains in White and Glass Boards images 3 and 4

- Wipe surface with a clean cloth moistened with a high-quality whiteboard cleaner or warm water.
  - Note: Using a non-appropriate cleaner may result in poor dry erasability due to the build-up of residues from the cleaner on the surface.
- Rinse with clean, warm water to remove any cleaner residue.
- Wipe surface dry with a clean cloth.
- Surfaces used moderately should be cleaned two to three times per week.
- Surfaces used more intensely may require daily cleaning.
