

# `WriteScreen` Projection Screens

## WriteScreen a writeable dry erase ceramic projection surface.

Using patented technologies TK-Team have reduced the GU rating on their dry wipe ceramic steel surfaces enabling the surface to be suitable both as a projection screen and a dry-wipe writing surface.

### Suitable for use with all short or ultra short throw projectors.

Whether you are using your finger, an interactive stylus or dry-wipe pens to annotate over your projected image no special cleaning is needed.

Can be used as a stand alone magnetic dry-wipe writing surface.

- All sizes available formatted in 4:3, 16:10, & 16:9 ratios.
- The perfectly flat surface has six point fixings and is fully adjustable.
- Measures 24GU according to ISO 2813.
- Conforms to DIN 90145 creating high uniformity and picture quality.
- Maximum 1500mm vertical dimension.
- Available in silver, white or black Standard or Ultra Trim.
- 25 year warranty.
- Made from minimum 50% post-consumer and post-industrial waste.
- The product is recyclable.
