

TutorMaxiScreen Projection Screen

TK-Team 80" Diagonal TutorMaxiScreen 16:10 Oversize Hybrid Projection/Writing Board

Perfect for Interactive Multi-Touch Projector Installations that require a finger touch laser module to be mounted on the screen surface above the image and provide a `no fly zone` for calibration.

Finger touch laser module is mounted on a grey laminate strip above the projected image.

TutorMaxiScreen can be used as a dry erase board when not using the projector.

Provides 80" Diagonal 16:10 image size.

Overall board size 2010mm x 1290mm.

TutorMaxiScreen surface GU26 rated. 99% recyclable.
